telecommunication workers.**

**YOU DON'T FIGHT ANYMORE
YOU HAVE LOST.**

Greetings colleagues.

EUROCONTROL S.A, integrated into the APAVE Group internationally, in full expansion and billing more each year, fired Carlos Villarino and Julio Sugueti, telecommunications workers, on October 13, 2022.

The reason for the dismissals is that these colleagues demanded The legal compliance in matters of diets, displacements, professional category and salaries. They had communicated to the company his membership of the CNT-AIT union and claimed his rights as workers.

EUROCONTROL S.A exerts repression union against colleagues firing them unfairly without meeting the requirements contemplated in the current regulations. Nope it complies with labor legislation and does not accept freedom of association.

This despotic attitude is common practice on the part of the management of EUROCONTROL S.A. We want them to know that they are not intimidating us and we are going to fight for the reinstatement of our colleagues and we are not going to allow more layoffs or the violation of our rights.

IF YOU DON'T FIGHT YOU HAVE ALREADY LOST "
